

To Whom It May Concern:

Tenurgy first contacted us by phone. John Watson gave a detailed verbal presentation of how Tenurgy could assist in finding us savings, credits and refunds by reviewing just one invoice combined with a letter of authorization.

After a meeting with our executive committee we decided to move forward with the study. On August 16 we signed the necessary documents, copied one invoice from each provider, scanned and emailed everything to Tenurgy.

On September 17 John Watson and Michael Harrington (President of Tenurgy) presented us with a complete detailed summary including all the supporting documentation to their findings. Tenurgy was able to identify a refund of nearly \$30,000 and areas of savings that total over \$27,000 annually. AG Business Solutions activated the recommendations and currently is realizing monthly savings.

Almost 90% of this work was done over the phone with very little time on our end, and significantly reduced our budget for the next 36 months. We would highly recommend Tenurgy to any company looking to increase their bottom line profits.

A handwritten signature in black ink, appearing to read 'Vicky Wille', is positioned above the typed name.
